Committee on
Merchant Marine and Fisheries
Washington, D.C. 20515

April 1, 1979

Dear Mom & Dad,

I'm just making out the bills today, Diane is taking a bath, and Mike is eating. Tonight we go to the Kennedy Center, as I told you this morning on the phone.

Next week I'm going to tour the Netherlands Embassy, which should be fun. I also have a lot of shopping to do now that our weather is so warm.

That article of baby formula sure was shocking. I had heard about that situation before, on a World Hunger television program. I will also boycott those products.

I hope you plan to do a lot of sight seeing when you're here in May. That will be such a pretty time to be outside, and to see things.

Mike and I decided with Jim and Vickie to go in with them on keeping their Condominium. We will pay them half of what its worth, and then rent it out and split the rent and expenses. It would be a good income tax break for both of us.

We're looking forward to having you visit us. Please plan to stay a long time, as there is so much to see and do, and the downstairs is all fixed up for you.

Bye for now

Love, Mary
